

**MAZENOD
COLLEGE**

9 March 2022

Dear Parents and Caregivers

I am writing to advise you there has been a positive case of COVID-19 associated with our College today.

It has been determined that there are no school-based close contacts of this case beyond the family. No students or staff are required to quarantine at this time and should attend school. There are changes to the determination of close contacts that will be communicated by the College tomorrow.

Nonetheless, this news should come as a timely reminder for all members of the community to monitor COVID-19 symptoms and seek testing if symptoms develop.

Advice for all families and staff:

- The school remains open.
- We ask that you monitor your child/yourself for symptoms of COVID-19 and get tested and isolate until you receive a negative result if symptoms develop.
- If you or your child develop symptoms, please do not attend school.
- Please note that the Omicron strain can present with less typical symptoms such as diarrhoea, particularly in children.

Our school continues to work in partnership with WA Health as we respond to the pandemic.

As these notifications of positive cases grow, I will be changing the format for communicating with the College community.

If you have queries or concerns regarding your child, please contact me. If you have health concerns, please contact WA Health on 1300 316 555 or at PHOpsClinical@health.wa.gov.au

Kind regards

**Andrew Watson
Principal**
